

Salt Basin Net Works

SALT BASIN NET WORKS · BOTTOM LINES WITH A RISING TIDE

◆ OPERATOR NETWORK · STRATEGIC OPERATOR BRAND ◆

Salt Basin Net Works

A curated network of senior lead-to-cash, RevOps, and finance-systems operators — and the platform that connects them to PE-backed and high-growth companies that need proven talent, not bench resumes.

FOR OPERATORS

Your profile, your network

Members get a full multi-page profile site (yourname.saltbasin.net or /u/yourname) with their own admin, brand colors, draft/publish workflow, and a place in the curated Net Works banner on the Salt Basin home page.

[BUILD YOUR PROFILE →](#)

FOR COMPANIES

Proven senior operators

Skip recruiter overhead and junior bench resumes. Reach out and we will help shape the engagement — diagnostic sprint, embedded operator, or advisory retainer.

[START A CONVERSATION →](#)

FOR THE FOUNDER

Founder-first portfolio

Salt Basin is also Betsy Salter's living portfolio — every case study, proposal, and reference path is reachable here. The platform doubles as her front door.

PLATFORM CAPABILITIES

69 features shipped across 12 capability areas

Platform Foundation

The shared CMS infrastructure both you and members use — schema, auth, draft/publish, block library.

5 FEATURES

Multi-tenant CMS

Member admin parity — every operator runs their own multi-page site with the same shell you use, scoped to their own data.

5 FEATURES

Lead Capture & Identity

Public forms → leads → match-and-merge dedup → password-protected lead records → optional member conversion.

4 FEATURES

Email Infrastructure

Custom-domain mailbox (Zoho), transactional sending (Brevo), DNS auth (SPF / DKIM / DMARC), templated outbound.

4 FEATURES

Salt Basin Net Works

The opt-in operator network: members opt in via their config, their card appears in the rotating banner on the Salt Basin home page.

2 FEATURES

Public Site Content

Founder-first hero, industries × domains wheel, services, case studies, timeline, technology, contact, references.

4 FEATURES

Output Pages (Resume / Proposal / Case Study / One-Pager)

Print-friendly, member-gated, deep-link-shareable views of high-value artifacts.

3 FEATURES

Admin Experience

Salt Basin admin UX: sidebar, editor, preview, config panel, leads panel, Net Works roster, mobile.

7 FEATURES

Deployment Infrastructure

Render (backend), Netlify (frontend), Supabase (DB + storage), GitHub Actions monitors, env-var management.

3 FEATURES

Security & Data

Auth (bcrypt + sessions), password rotation, data notice, gitignore hygiene, lead-data protection.

2 FEATURES

Observability & Quality

Deploy monitors, missed-deploy detection, build-credit hygiene, local verify-before-push workflow.

1 FEATURE

Salt Basin Net Works is in early access. Join the network, hire from it, or reach out.
